NEWS

Newsletter | February 2025

In this quarterly IDERHA newsletter we put **IDERHA researchers in the spotlight**, present our **public consultation on Health Data access**, share an interview with **project leads Phil Gribbon and Christian Muehlendyck** and announce the date for the **second Public Forum** in Berlin. Keep an eye on our [website](#) and [LinkedIn](#) to follow IDERHA's progress.

IDERHA is a pioneering research project funded by the EU that aims to build a digital platform that integrates health data to help researchers, clinicians and patients to improve patients' outcomes. More information on our [website](#).

Join the Second Public Forum in Berlin!

IDERHA is eager to engage with the public as part of our ongoing outreach activities and transparency commitments. You are therefore very welcome to join us for our second Public Forum on May 5th in Berlin. [Read more and register here.](#)

In the Spotlight: Leonie von Berlin

In our interview series about the people that drive IDERHA, we spotlight Early Career Community member Leonie von Berlin. Read about her interest in stress-related disorders, why she would like to have dinner with Simone de Beauvoir and her ideal way to spend the day off. [Read the whole interview here.](#)

We Need Your Opinion on Health data

We recently identified ten key thematic areas where policy recommendations could significantly improve health data utilization. We developed a survey to seek your opinion on where our future work should focus. [Read more and give your input here.](#)

IDERHA Stakeholder Meeting Unites Key Players in Austrian Healthcare

The 'IDERHA and EU-DataSpaces Stakeholder Meeting' convened on 28 November in Vienna, bringing together a diverse array of technical staff from Austrian healthcare system stakeholders. [Read more.](#)

In the Spotlight: Lukas Rohatsch

In our interview series about the people that drive IDERHA, we spotlight Early Career Community member Lukas Rohatsch. Read about his interest in music and why he likes watching the *Big Bang Theory*. [Read the whole interview here.](#)

"Our Consortium is Ideal for Tackling Several Key Issues Comprehensively"

IDERHA aims to develop a platform that will integrate diverse health data, resulting in better patient care and more efficient research. Projects leads Phil Gribbon and Christian Muehlendyck reflect on the challenges, expectations, and their personal motivation to make a difference for patients. "We're very optimistic about the positive impact IDERHA will have." [Read the whole interview here.](#)
